

In light of the pressing global environmental challenges and the urgent need to mitigate climate change, conserving non-renewable energy resources has become an imperative collective responsibility.

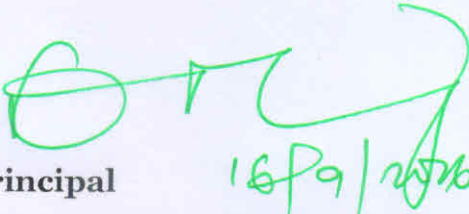

To mark World Car-Free Day and foster sustainable habits on our campus, a special appeal is being made to all stakeholders—students, faculty, administrative staff, and visitors—to refrain from using personal motor vehicles on Tuesday, 22nd September 2026.

Instead, everyone is earnestly requested to adopt eco-friendly commuting alternatives:

- Non-motorized Transport: Commute by bicycle or on foot.
- Green Mobility: Opt for battery-operated / electric vehicles (EVs).
- Shared Mobility: Utilize public transit options.

Small individual actions can lead to a significant collective impact in lowering our carbon footprint and curbing urban emissions. Let us lead by example and demonstrate our shared commitment toward a cleaner, greener tomorrow.

Your active support and enthusiastic cooperation are highly solicited to make this initiative a success.
